

Got Fur?

Snuggle Coats wants your old fur coats, stoles, capes and hats to give to Animal Groups to rehabilitate and enrich the lives of animals in their care. Furs provide a more natural environment for the animals as compared to towels or blankets and they are often heard heaving audible sighs before snuggling into these fur donations. These furs can act as a surrogate for injured wildlife during the rehabilitation process.

We all know that there is nothing sexy or beautiful about wearing a second-hand fur – so now it's time to give them back to the animals. The condition of the fur contribution is unimportant. However, only real furs can be accepted.

If you have any furs to donate, questions, or are an Animal Group that thinks they could benefit from the furs – then contact us!
